

Nepal Village Foundation (UK)

Supporting sustainable livelihoods development projects in the rural villages of Nepal

Project Update 2009

Mosquito net project great success

Hello and Namaste,

Thank you to all who have directly and indirectly supported Nepal Village Foundation (UK) to complete the project (mosquito net and malaria awareness) in a rural village of Nepal. We couldn't have done this without your support so thank you again.

Carole and I were in Nepal in last September for two weeks and we have visited the beneficiary families, they really appreciated our support, women were more keen and motivated to take part in self-help action groups and the net distribution programme was a successful social gathering event in itself.

I have attached a pdf version of the project report with this email. Please have a quick look at what we did with your donation, how much the beneficiaries appreciated the help.

Your suggestions and advice are very welcome to make the projects more effective and meaningful. Definitely your continuous support will drive us to success and will be able to bring good changes into the life of Dalits and the poorest of the poor people.

Mr. Ram Narayan chair of **Hamro Samaj Nepal** organisation, distributing mosquito nets in a rural village of Nepal

Are you thinking of visiting Nepal?

Koshi Tappu wildlife Reserve, 500 different species of rare birds like red necked falcon, black necked stork, swamp frankolin

The famous mithila cultural city of Janakpur

Learning Resource Centre (our next project)

Our next project is to establish a learning resource centre which requires about £6,700 development cost and roughly £2,400 annual running cost.

Aims of the project;
Improve livelihoods and sustainability, improve farming, improve health care, educate girls, improve literacy and a range of other activities aimed at improving the lives of the rural poor. For full details of this project, please click on the link below
